Please accept the fact that we have no control over the weather and will not give refunds due to poor conditions. Our policy is to operate every day, make a big effort to have fun and make the best of what nature presents us with – even if the conditions are not the best and your cooperation in doing so is greatly appreciated.

We reserve the right to cancel any tour/rental, in part or in whole, for any reason, such as inclement weather, avalanche conditions, operational emergencies, mechanical reasons, pandemics, or insufficient guest bookings, in which case you will receive a full refund. We will not be liable for any liquidated damages, consequential cancellation fees, rental charges, service charges, or any other consequential, compensatory charges.

Damages

Damages are NO Fun. And we dislike damages as much as you do. You end up paying for the damages which can often be avoided. We end up with loss-of-value on our machine, down-time in which the machine cannot be rented and the additional work of repairs. It really is a no-win situation.

We do not dispute damages with our guests. Cosmetic damages, parts and labour times can add up quickly. Some damages cannot be fully assessed, until the machine is taken apart by us or a dealer.

Our procedures are very clear about when you are responsible, and for what damages. If you have any questions prior to taken a sled out, you must ask.

You are responsible for full damages to the rental machine, unless you have purchased optional insurance.

Damages are **per incident**, which means that if you cause damages one day, you will have to pay for those, and then are responsible for consequent new damages the following day. If your rental machine is in-operable due to the damages caused, you have no right to refunds. We will however endeavour to get you a replacement machine if available.

It is in your best interest to check out your machine in detail before you leave on your rental or tour. We will go over the machine in detail with you and inform you to take note of all damages, which will be written on your contract and documented in the damage video taken every morning. It is in your interest to do this diligently. Upon return we will check the vehicle with you and evaluate any damage. All damages are subject to a final audit by our shop.

You will be charged for the following damages:

Parts: Part value plus labour. Shipping charges.

Scratches & damages on other parts that require no replacement:

A Min of 20% up to 50% of part replacement value.

Track damage: \$200 per split or missing lug.

Frame damage: Full deductible

Fire damages & will-full damages:

Full damage

Damages caused by carrying passengers that are not designed to be taken:

Full damage

Burned Belt (flat spots) from leaving Parking brake on:

Full damage

If you do not agree with our damage assessment, we will be happy to get an assessment done by a dealer.

Registration & Liability

We do our best to ensure the safety and enjoyment of all participants, but since these activities involve known and unknown risks, we require all guests to sign a registration, assumption of risk statement and liability waiver prior to tour or rental departure. Waivers are available prior to making your reservation. We advise clients to arrange proper liability and medical insurance, which may include helicopter evacuation.

Final audit: All charges are subject to a final audit. If client is over- or under charged, they will pay the correct amount or receive a refund.

Accommodations

All our advertised rates are based on four people staying in our on-site 2-bedroom cabins. Rates will differ for different accommodation types and group sizes.

Itineraries

Itinerary may change pending conditions and ability of rider. This is up to the discretion of your guide on the day of your tour.

Meals

All our multi-day tour packages include a packed lunch for the mountain. Please let us know of your special dietary requirements and/or allergies. Dinner is not included but all accommodations come with a full kitchen or enjoy the many restaurants downtown.

How to get here

Great Canadian Tours is located 7 kms west of the town of Revelstoke. Taxi services are available to and from town; however, you may prefer to have your own transportation when staying with us. Transfers to and from the Kelowna International Airport (YLW) are provided through **Revelstoke Transfers**. Several car rental companies are available at the Kelowna airport also.

Machines

Great Canadian Snowmobile Tours has a stringent maintenance program for all our machines and are pleased to provide you with the best machines possible.

However, they do have a large mechanical component beyond our control, and should a machine have problems, we ask for your understanding, allowing us to fix your problem quickly or efficiently.

Snowmobile Experience

Snowmobiling in 4 feet of fresh powder is physically demanding and requires good strength, stamina and coordination. Consequently, mountain riding is predominantly done with one person per machine and as a general rule no passengers are allowed. It is not the same as trail-riding, where one can stay seated; in mountain riding the rider frequently stands up and uses his/her weight to steer the machine. The nature of the riding and for liability reasons, a min age of 19 is required to ride your own snowmobile. Mountain snowmobiling is not recommended for people in poor health or with pre-existing injuries.

Riding levels: Choose the tour that fits your level of experience and fitness

A-Level: Novice rider with limited experience. 50% trails and 50% alpine.

B-Level: Previous trail experience but no or limited mountain experience. 20% trails, 80% alpine

C-Level: Previous Mountain and deep snow riding experience. 100% alpine & challenging terrain.

While 'A' tours are suitable for novice riders with no or limited riding experience, previous riding experience and a good physical condition assist you in enjoying the mountain snowmobile experience the most. Please note it is in the interest of guests to select a tour that fits their ability level. Expert tours (C-level ability) require riders to have prior mountain riding experience, and riders with insufficient abilities may be asked to sit out a day or part of the tour (with no compensation), or hire a private guide, for the safety and well-being of other riders and guides.

Riding a snowmobile

Speed is controlled by a thumb activated throttle. Braking is done with one hand while steering takes place through a handlebar. Alpine snowmobiling also requires much steering by shifting the body weight and riders should be in good physical shape.

Avalanche & Riding Safety

Please note that weather, snow, road and/or avalanche conditions may alter the riding programs and destinations. Backcountry Tour Clients are provided with avalanche safety gear as well as clear instruction on how to use.

Clothing

Average winter temperatures range between 0 to -10 degrees C. Full protective clothing is provided by us on all tours, which includes protective snowmobile suit snowmobile boots and snow cross-style helmet. You are responsible to bring the following: goggles, winter finger gloves (no mitts), turtleneck shirt or long underwear, woolen socks, sunglasses, sunscreen, neck warmer/balaclava. Several of these items can be purchased in our shop.
