All riders must have a valid driver's license to operate one of our vehicles.

We do our best to ensure the safety and enjoyment of all participants, but since these activities involve known and unknown risks, we require all guests to sign an assumption of risk statement and release of liability waiver prior to tour or rental departure. Waivers are available prior to making your reservation. **It is the client's responsibility to read and sign our conditions, contract and waiver policy. Please ask if you have questions.**

We advise clients to arrange proper liability and medical insurance, which may include extraction coverage from remote areas.

Damages

Damages are NO Fun. And we dislike damages as much as you do. You end up paying for the damages, which can often be avoided. We end up with loss-of-value on our machine, down-time in which the machine cannot be rented and the additional work of getting parts shipped and installing them. It really is a no-win situation.

We do not like to dispute damages with our guests. Like a car, cosmetic damages, parts and labour times can add up quickly. Some damages like front end and frame damages cannot be fully assessed, until the machine is taken apart by us or a dealer.

Our procedures are very clear about that you are responsible for all damages. If you have any questions prior to taking a machine out, you must ask.

Damages are **per incident**, which means that if you cause damages one day, you will have to pay for those, and then are responsible for consequent new

damages the following day. If your rental machine is in-operable due to the damages caused, you have no right to refunds. We will however endeavour to get you a replacement machine if available.

If damage occurs due to reckless driving, we will cancel the remainder of your booking without a refund. Damages will be completed to the pre-authorization provided for the damage deposit within three days of the incident.

It is in your best interest to check out your machine in detail before you leave on your rental or tour. We will go over the machine in detail with you and inform you to take note of all damages, which will be written on your contract and documented in a video of the machine taken prior to the rental. It is in your interest to do this diligently. Upon return we will check the vehicle with you and evaluate any damage. All damages are subject to a final audit by our shop.

You will be charged for the following damages:

- | | |
|--|--|
| Parts/ Equipment cracked/dented/missing: | Part value plus labour and shipping charges. |
| Frame damage: | Full damages |
| Roll-Over damage: | Parts plus labour. |
| Fire damages & will: | Full damages |
| Damages caused by carrying passengers that are not designed to be taken: | Full damages |
| Burned Belt (flat spots) from leaving Parking brake on: | Full damages |

DISCLAIMERS

We offer true backcountry experiences

Our activities take place in remote wilderness terrain along shared-use public trails and waters. You'll be exploring rugged alpine and forested backcountry areas and remote waters where:

- Weather conditions change rapidly — it can go from hot and sunny to cold, wet and windy within minutes.
- Trail surfaces vary — expect everything from loose gravel, mud and water crossings to steep climbs and rocky sections.
- Water conditions vary — calm waters can turn into choppy conditions quickly, expect and avoid driftwood.
- You may encounter others — trails are used by trucks, dirt bikers, mountain bikers, hikers, wildlife, and other off-road vehicles. The lake is shared with other with all kinds of other vessels such as boats, canoes, kayaks and SUPs as well as swimmers. Caution and courtesy are essential!
- There are no services — once on the trail, there are no bathrooms, stores, or shelters, cell service is limited.

Come prepared, ride responsibly, and be ready for an authentic backcountry journey!
